RENTEX

For the first time a European exhibition for the rental market is held in Maastricht (The Netherlands) from the 12th till the 14th of September 2002. This exhibition shall bring together rental companies and their suppliers. Of course, **EUROPOWER** shall be present as well. Visit us at our stand 695!

RENTEX Parties

Would you like to get in touch with interesting people from the world's largest rental companies? Then you certainly shouldn't miss our "Rentex Meeting Parties". On Thursday and Friday you can share thoughts and experiences on our stand as from 17.00h. We shall take care of snacks and drinks!

Specific generators for the rental market:

EP4100

4kVA, with Honda gasoline engine, 9HP, 1~ 230V, 16A. Insulation protection, hour counter and other options are within our range.

EP6500T

6.5kVA with Honda gasoline engine 13HP, 3~400V 8A and 1~230V 18A. For this generator too, many options are possible.

EP200X

DC welding generator, 200A with Honda gasoline engine, 13 HP. Electric power is 6.5kVA 3~ and 3.5kVA 1~

EPS300DXE

New in our range. 300A DC super-silenced welding generator with Kubota water-cooled diesel engine, 3000 rpm.

NEW FOR RENTEX EUROTOWER

EUROPOWER LIGHTING TOWER

Features:

- Hydraulically or manually raised lighting tower
- Height of mast: 9 m
- With 4*1000W or 4*1500W lighting
- Choice between halogen or metal halide lamps
- 360° rotatable from the ground
- Mounted on a trailer with tow bar with brakes able to carry up to 1600kg
- Equipped with lifting eyes and lashing rings

Benefits:

- Fully operational in a very short time
- Stable trailer with extending supports
- Can be easily placed on a lorry
- Choice between different **EUROPOWER** generators
- Generators are easily de-mountable and can, because of this, also be rented separately.
