

More info on 'PRACTICAL WORLD'

We invite you – as usual – for the Practical World exhibition in Cologne from March 9th till 12th, 2003.

You will see the latest developments in the domains

That carry your interest.

On our booth C050 in hall 14.2 we will show you the newest products in the generator market.

If you have some free time in the evening, please let us know. That way we can discover Cologne city together.

Also this year, we shall organize a number of 'Parties' at our stand.

Sunday 9/3 at 16.30h: [EPSi2000](#) party. Our very light, heavy weight new inverter generator will officially be presented to you, together with a glass of Japanese sake.

Monday 10/3 at 16.30h: At our booth you will have the chance to talk with the most important generator manufacturers. So be there.

Tuesday 11/3 at 16.30h: Now we are sure that the [New Boy](#) generator is the most silent (87 LWA) generator in the 3000 rpm diesel range. That needs to be celebrated.

Further research and new developments resulted in an extra noise reduction of 3 dB(A). A chance to discuss that in detail.

In order to get your way around the exhibition and to find our booth, check out the [floorplan](#) of the exhibition.

[Click here](#) for a list of all generator exhibitors at 'Practical World'.

Bring along this newsletter when visiting our booth and you will receive a free [EP2003 T-shirt](#).

During the exhibition, special sales conditions will be applied.

Check out our renewed [EUROPOWER](#) website. From now on you can find our documentation in PDF and with access code you can download the prices for 2003. You can also use our homepage as a startpage to explore the internet. Take a look the people of **EUROPOWER**, who are always on your service.
